

Did you know...

According to Scientific American, Silipint® drinkware is safe because it's chemically inert and stable, it doesn't react with or leach into food; doesn't outgas vapors, even at high temperatures. Silipint® drinkware is not toxic to soil or organic organisms plus it's recyclable.

Reach a broad audience with impressions you can count on time and time again. Silipint® drinkware is fun merchandise, and perfect as a unique and useful giveaway. If innovation and versatility complements your industry or market, consider branding Silipint® drinkware with your logo. Service is at the core of what we do and we're standing by, ready to help create amazing custom cups to benefit your brand!

46238 Straight Up
Pint Glass—16 oz.

Get the most joy out of your hydration with unbreakable drinking cups that are ready to be squeezed, shaken, stirred, and served. Silipints® are silicone drinking glasses that bring fun to every occasion. Why not add color to your cupboard and smiles to sips? **Life is better Sili.**

Eco-friendly materials. Silicone is made from materials that exist in abundance – the same materials that make up a huge percentage of the earth's crust. Silipints® don't employ limited resources like petroleum or metals that need to be drilled out of the ground to make plastic cups and metal containers. You really won't throw your Silipint® away because they can be used again and again, virtually forever, which promotes a zero-waste lifestyle.

Lots of Sili-Uses. Watering cup, pot holder, snack holder, ice scoop, funnel, flower vase, cocktail shaker, the sky is the limit.

Perfection. BPA Freedom, Microwave safe, dishwasher safe, freezer safe, ovens & grills, sturdy squeeze, toddler proof, bendable, flexible and unbreakable. We think it's the perfect material for any drinking cup.

More than your average cup. A single Silipint® can take your morning coffee to go, heat up your soup for lunch, keep your beer cold around the campfire in the evening and repeat every step again tomorrow.
