Re: Item: 41168 Koozie® PrevaGuard™ Can Cooler

Dear Sir or Madam:

This Letter is being written to confirm that the following products:

Item No.	Description
41168	Koozie® PrevaGuard™ Can Cooler

have an EPA registered antimicrobial pesticide incorporated into the fabric to protect the product itself by suppressing the growth of bacteria, mold and mildew that may cause unpleasant odors, discoloration, or deterioration of the treated product. The EPA approved master label states that the antimicrobial pesticide is approved for inclusion into woven fibers and polyurethane foam for protection of the product itself. Copies of EPA approved master labels for all registered antimicrobial pesticides are available online at <http://npirspublic.ceris.purdue.edu/ppis/default.aspx>.

For more information on U.S. pesticide regulations and pesticide treated products, visit <http://www.epa.gov/safepestcontrol/consumer-products-treated-pesticides>.

Testing to ASTM E2149 and ASTM G21.

If you have any questions please feel free to contact the undersigned.

Sincerely,

A handwritten signature in black ink that reads "Francine Dupuis".
